Closed platform dispenser with height-adjustable platform for preparing cold dishes, for storing up to 16 stacks of \varnothing 5.5-11.8" (140-300 mm) round crockery items and rectangular crockery items with edge lengths of 6.3-10.6" (160-270 mm) and for cooling in cooling space according to need.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Closed outer housing with cooling slots on all four sides, with a stacking compartment including compartment inner panelling consisting of vertical plastic-coated struts. Removable platform made of high-quality stainless steel, with ball bearing platform guide. Consistent output height thanks to manually adjustable stainless steel tension spring system. Easy cleaning of stacking compartment from above and via two cleaning openings in the base plate. Four massive polymer corner bumpers, of which two at the upper corners of the structure that serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged, with integrated, ergonomically-shaped push bars. Dispenser runs on 4 swivel casters of which 2 with total locks, \varnothing 4.9" (125 mm), fastened by means of screw-on plates and several screws.

The Hupfer platform dispenser BD 60-60 K has the largest usable stacking space in comparison to other products, while a body with all-round cooling slots to ensure a rapid exchange of air for the tableware needing cooling, as well as two push handles installed on the corners of the unit to ensure optimal handling properties. The ergonomically shaped push handles also guarantee effective protection against injuries to the hands. The installation height of 900 mm is the standard working height in food distribution.
