Stationary shelving set norm 25 with solid shelf

Технические характеристики изделия N25GS23005001800 | RS-N25-GS/2300×500×1800

Технические характеристики

Показан пример без декоративных элементов, точность технического описания не гарантируется.

Max. bay load	100
Max. section load	600
Carbon footprint (TM65 Basic Report)	489 kgCO□e
Масса:	48.722 кг
Ширина:	2275 мм
Глубина:	500 мм
Высота:	1800 мм

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The solid shelf of the shelving norm 25 provides a stable and hygienic storage surface and allows easy identification of the items being stored.

The Hupfer Norm 25 stationary shelving offers a clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The easy-to-install, solid shelf made from stainless steel provides a stable and easy-to-clean storage surface. This shelf offers high load-bearing capacities. Thanks to the special stainless steel alloy used, the shelf also offers the possibility of applying clearly visible labels to your products through the use of magnets.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

Stationary shelving set norm 25 with solid shelf

Технические характеристики изделия N25GS23005001800 | RS-N25-GS/2300×500×1800

- special stainless steel alloy allows for the application of magnets and clear labelling of the stored goods
- solid shelf ensures safe, hygienic storage and clear access at all times
- high-quality stainless steel workmanship enables easy cleaning and perfect hygiene
- modular system allows for any design and extension and ensures the most efficient use of space
- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
