| <b>Высота:</b>                              | 1800 мм                 |

The Hupfer Norm 25 stationary shelving offers a clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The easy-to-install, solid shelf made from stainless steel provides a stable and easy-to-clean storage surface. This shelf offers high load-bearing capacities. Thanks to the special stainless steel alloy used, the shelf also offers the possibility of applying clearly visible labels to your products through the use of magnets.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.
